Sprint 3 Plan - CMPS 115 - Better Quiz App

Scrum Master(s): Emmett, Roman.
Sprint Completion Date: 3/12/2018.
Revision 1.

High Level Goals for this sprint revolve around the theme of cleaning up the display for the app and creating a review system for students to utilize, enhancing their test-taking experience by allowing them to look back on their graded quizzes and see where they went wrong. We also need to create a logo, to be displayed on our main pages and any other quiz pages.

User story 1: As a user, I want to be able to see my quiz results. (~12 hours)
      Task 1.1: Save quiz answers to a user model. (EO)
      Task 1.2: Connect it to the results page, to submit quiz. (YZ)

User story 2: As a user, I want to see a beautiful looking app. (~10 - 16 hours)
      Task 2.1: Style all pages with similar CSS, theme, and layout. (Frontend)

User story 3: As a user, I can logout. (~6 hours)
      Task 3.1: Connect the logout button so that it functions as intended. (EG)

User story 4: Refactor quiz, so a user can step through questions.(~10 hours)
      Task 4.1: Edit urls to support this. (EO)
      Task 4.2: Add support for "next question in quiz" button instead of submit question. (YZ/EO)

User story 5: As a company, we need to have a logo. (~2 - 4 hours)
      Task 5.1: Create a logo. (Whole team)
      Task 5.2: Place on login and dashboard page. (DB/RZ/RA/Frontend)

User story 6: As a user, I want some documentation about the app and company behind the app. (~ 2 - 4 hours)
      Task 6.1: add an about page. (Whole team)
      Task 6.2: add a help page with contacts at the company. (WT)

Total hours: ~40 hours.

Team Roles:

Ethan O'Brien: Product Owner and Backend Dev
Ruben Ayestes: Frontend Dev
Roman Sul: Scrum Master and Frontend Dev
Yang Zheng: Backend Dev
